Lockdown 2: Important information regarding Coronavirus (Covid-19)

Based on the latest government advice, to protect our customers and colleagues, we are temporarily closed from Thursday 5th November 2020 until further notice. **We will reopen when lockdown comes to an end.**

To keep our colleagues and customers safe, we're stopping all our non essential services – this includes existing bookings.

Whilst we are temporarily closed, we're giving customers extra time on product warranties. You will still have two years warranty from the date your install took place, but you must contact us via email or via our website to report the issue immediately so that we have a record of when the issue began.

All other terms and conditions are unchanged.

I appreciate that this may cause an inconvenience to you but we have to keep our colleagues and customers safe during these unprecedented times.

Our phone lines are closed but we will be providing limited responses to emails, to get in contact, please email info@keironcheesbrough.com or message us via the contact form on our website.

Stay safe,

Keiron Cheesbrough
Managing Director
